DETAILED ACTION

Newly presented claims 35-48 add species which were not originally presented.

Applicant is given the opportunity to elect among variously newly presented species as follows:

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

species directed to an identifier as defined by claim(s) 35,36, 37;

species directed to a receiver/detector/transmitter combo w/ a comparator as defined by claim(s) 38/39

species directed to receiver/detector/transmitter combo w/ a terminating means as defined by claim(s) 38/40;

species directed to receiver/detector/transmitter combo w/ e-mail retriever as defined by claim(s) 38/41;

species directed to receiver/detector/transmitter combo w/ invisible messaging as defined by claim(s) 38/42;

species directed to receiver/detector/transmitter combo w/ host unit incorporator as defined by claim(s) 38/43;

species directed to receiver/detector/transmitter combo w/ SQL statements as defined by claim(s) 38/44;

species directed to receiver/detector/transmitter combo w/ command line statements as defined by claim(s) 38/45;

Art Unit: 3627

species directed to receiver/detector/transmitter combo w/ host messaging as defined by claim(s) 38/46;

species directed to receiver/detector/transmitter combo w/ migration engine as defined by claim(s) 39/47;

species directed to receiver/detector/transmitter combo w/ replacement engine as defined by claim(s) 39/48.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1 and 33 generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

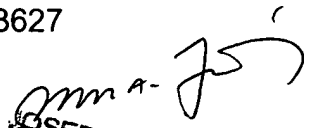

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record

Art Unit: 3627

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
